The President Shows Much Improvement—Thought He Will Soon Be Fully Recovered.

COTTON REPORTED DYING

The Boers and British Again in Battle, With Defeat For Former and Losses For Both.

STRANDED CREW MAY BE SAVED

Washington, Jan. 10.—The president is distinctly improved today. His physician thinks he will be able to attend to his duties in a few days more.

Indianapolis, Jan. 10.—The state legislature is in session. Gov. Mount's farewell message was read today.

Madrid, Jan. 10.—Admiral Cervera, the Spanish naval hero at Santiago, is dying at Cadiz.

London, Jan. 10.—Lord Kitchener reports a savage attack by Boers along the Pretoria railroad. He says there has been prolonged fighting, the Boers being repulsed after heavy fighting. Losses were sustained by both sides.

Evanston, Jan. 10.—A race which is threatened at Newberg, ten miles from here. The whites attacked the home of John Crow, a negro living with a white woman. A hundred shots were fired and the whites had to retire, but they are preparing for an attack tonight. The negroes are fortifying Crow's house to resist.

Marseilles, France, Jan. 10.—A life boat has succeeded in reaching the stranded steamer Russie in despite of a terrific storm. Food is being passed to the famishing people on board. There is some hope of rescuing all of those on the Russie.

NEWS NOTES.

Construction of additional submarine boats of the Holland type is strongly opposed by the board of construction in a report to Secretary Long, which has been sent to the senate and house naval committees.

The Carnegie company will build the largest pipe and tube manufacturing plant in the world at Connec- Harbor, Ohio. The plant will cost about \$12,000,000.

A. S. Winstead, of Henderson, a prominent citizen and distiller, is hopelessly ill from paralysis. He is quite aged.

Hon. J. C. S. Blackburn denies emphatically the story that he is soon to marry.

SUSPECTS ARRESTED.

Officers Harlan and Hart this afternoon arrested John Doyle, Thomas Golden, Robt. Williams and Ben Smith, four half grown white boys, as suspects. They had a large quantity of gloves and other goods and are believed to be wanted at Jackson, Tenn.

MARY AT BENTON.

Benton, Jan. 10.—Mr. Lee Thueatt, a prosperous farmer residing near Mangos, aged 63, and Mrs. Sarah Roberts, aged 38, were married here yesterday in the county clerk's office by Judge Shewell. This is the second marriage of each.

DIED AT MOUND CITY.

Mrs. Henry Taylor, the wife of Capt. Henry Taylor, who for a long time was captain on the Fox Powler, died in Mound City last night at 9 o'clock. Mrs. Taylor once lived here.

CIRCUIT COURT.

In the circuit court this morning, the attachment in the case of J. W. Madden against J. J. Woods, was tried and judgment rendered for \$180 in favor of the plaintiff.

MRS. J. M. BIGGER DEAD.
ONE-TIME ESTEEMED RESIDENT
OF PADUCAH DIES NEAR
FULTON.

Tuesday evening at 8:30 o'clock, at the home of a distant relative near Fulton, Mrs. Fannie Bigger died of rheumatism augmented by general debility. Mrs. Bigger was the widow of Judge J. M. Bigger, for years one of the best known citizens of Paducah and Southwestern Kentucky, and had reached the ripe age of 70 years. She lived as a citizen of this place for many years and was most highly esteemed by a very wide acquaintance. Mrs. Bigger was a native of Fulton county and a daughter of Richard Stephens, in life a respected resident of that locality. She was united in marriage to Judge Bigger in 1846 and survived him a number of years. No children blessed their union, but Mrs. Bigger had a number of distant relatives, these residing in Fulton and Ballard counties and some here. Mrs. Bigger was a constant member of the Christian church.

The remains were brought to Paducah today for interment in Oak Grove beside the body of her husband. Though there was no public announcement of their coming a number of friends were present to pay their last respects at the grave.

Rev. W. H. Pinkerton, of the First Christian church, officiated. The pall bearers were Major T. E. Moss, Hon. Charles Reed, Captain J. M. Ezell, Messrs. George C. Wallace, E. G. Boone and L. W. Boswell.

ANOTHER CHAPTER ADDED.

MRS. VITA MULKEY-PASSOW A
SECOND TIME UNITED IN
MARRIAGE WITH MR.
ED PASSOW.

Yesterday's Metropolis Journal records this item of local interest:

"Mrs. Vita Mulkey-Passow returned from Chicago Tuesday afternoon and her friends announced that the romantic secret wedding with Mr. Ed Passow, of Texas, celebrated at Paducah last August, had been solemnized by a second marriage in Chicago on New Year's day, a Reverend Father of the Holy Catholic church officiating.

"The story of Miss Mulkey's romantic wedding at Paducah, and the break between her lover husband just before the eve of a public wedding within the church, is fresh in the minds of our readers.

"Miss Mulkey, while visiting in Texas, met Mr. Passow, a wealthy ranchman. He fell desperately in love with the Metropolis young lady;

a correspondence was kept up between them after her return home; when Mr. Passow came himself. He sued for the young lady's hand and won. The contract was sealed by a secret wedding in Paducah. He returned to his western home, and the day was set for a church wedding.

"Just before the day of all days to the Texan lover came a round his wife concluded she did not love him as a wife ought to love a husband, and the public wedding was declared off.

"A divorce was expected as a closing chapter to the romance, but Cupid shot another dart, and the wedding bells rang joyously on New Year's day.

"Mrs. Passow had been in Chicago visiting friends. Mr. Passow was called there to help arrange the estate of his father who had died recently. There the two young people met again, all differences were set aside, their love had grown during their separation, and the wedding by the priest, long deferred, was celebrated.

"Mrs. Passow is ill at the present,

but as soon as her health will permit

she will join her husband in Texas. The bride is a daughter of Judge Mulkey, and the groom's father was a wealthy Chicago manufacturer."

There is talk in New York of another war loan being asked for by England.

TAKEN BACK

L. C. Bonifacio Sent to Morganfield By Officer Henry Singery.

W. H. HURD WAS HELD

An Aged Prisoner Made Things Very Lively About the City Hall Last Night.

OTHER POLICE COURT NEWS OF TODAY

WELL KNOWN CITIZEN DIES FROM PNEUMONIA.

L. C. Bonifacio, one of the men wanted at Morganfield, Union county, for breaking into the depot, was arraigned before Judge Sanders this morning, and ordered taken back to be dealt with according to law. Officer Henry Singery left with him at noon for Morganfield.

W. F. Hurd, the man charged with stealing a cape from Mr. J. J. Dorian's and selling it to D. Rifford, and Bonifacio's partner, was arraigned before Judge Sanders this morning on a charge of obtaining money by false pretenses, and held to answer in the sum of \$300. He swore he bought the cape from a negro for 50 cents. He went back to jail in default of bond.

Harvey Allen, the negro charged with stealing a basket of fish from the wharfboat some time ago, was recognized to return Monday. The witnesses have not yet been found.

Ed Muse, colored, charged with a false swearing, was granted a continuance until Monday. He was held on the charge of petty larceny.

Carson Hill jumped off a street car last night after refusing to pay his fare, and was fined \$5 and costs by Judge Sanders this morning.

Doud P. Bell is the name given by an old soldier who tanked up a little too freely last evening late. He is a tramp, and Marshal Collins sent him back into the court room last night to sleep off his jags. Instead the old man slipped out and got a few more drinks and when next seen was trying to crawl up the city hall steps, with varying degrees of success.

"I told you that male would throw you," said the marshal reprovingly. "Now ain't you in a pretty fix?"

Bell began to curse everybody, and finally whacked around with his cane until he cracked an innocent bystander across the shin. He was then carried below, being unable to walk, and this morning was fined \$1 and costs by Judge Sanders. Judgment was suspended on account of his age, on condition that he leave the city at once. He promised to leave.

Mr. H. Zuber's horse and buggy disappeared last night and was found at a little hour beyond the union depot. It is supposed that it was driven off by Jacob Webber, who was drunk, and who was arrested and fined by Judge Sanders this morning for drunkenness.

An officer was summoned to Little's addition about 7 o'clock this morning. Officer Chase Hart was detailed to answer the call, and after scouting about the woods for half an hour, was told at the home of a man named Gates by one of the children that some one had stolen their buggy.

As Gates was not at home, the officer had to return without further information.

George Smith, colored, wanted for assaulting Viola Green, is still at large, and the woman is reported better today, and may recover.

CO-OPERATION.

THIS IS WHAT THE MEDICAL SOCIETY APPEALS TO

The Commercial Club For—Medical Society Met Last Night—Board of Health Blames the Council.

The Paducah Medical and Surgical society met with Drs. Rivers and Redick last night and fully discussed sanitation in Paducah.

A paper by Dr. H. T. Rivers gave complete and official figures on everything connected with the health department, and was one of the best ever read before the society.

It showed that in the district served, only 403 out of a possible 2,272 connections have been made with the sewerage, and that the death rate outside the sewerage district is one and one-tenth per cent greater than in the sewerage district.

The Medical society has received an informal proposition from the Water company of \$1,000 to be forfeited if the water furnished to the people of Paducah does not come out of the Ohio river. The company has sent a jug of water, drawn from a faucet and directly sealed, to St. Louis to be analyzed.

Dr. C. H. Brothers, until this year president of the board of health, made a report in which he laid the sanitary condition of the city to the mayor and council. He said the board of health had some time ago practically had everything taken out of its hands, and was powerless. That the members would have resigned in disgust long ago if it had not looked cowardly in them.

Dr. Rivers' paper was turned over to the committee selected from the Medical society at its previous meeting, to be presented to a committee from the Commercial club at 2 o'clock this afternoon.

The Commercial club will meet to-night to consider among other matters the Medical society's appeal for cooperation in the work of improving Paducah's sanitary condition. Judging from indications, with the Medical society and Commercial club working for better sanitation and the city council and mayor aroused to the realization of the necessity of prompt remedies, for active work along that line, Paducah is in a fair way to get the best in the way of good sanitation.

TRIBE OF BEN HUR.

The Tribe of Ben Hur was instituted at Odd Fellows hall, Fifth and Broadway, last night, by Deputy Sheriff Frank T. Moore, of the Paducah Commercial company, 15th and Third streets, received over their special wire to the Chicago board of trade and New York cotton and stock exchanges. Telephone 487.

THURSDAY, JAN. 10, 1901.

The country is doing well under Republican rule. Republicanism seems to mean nothing short of prosperity.

The investment of the United States in the Sault Ste. Marie canal has been immensely profitable. The investment to be made in the Nicaraqua waterway, will be equally profitable.

The saloon men of Metropolis are going to give the "toppers" of that place a novel treat. They have decided upon one day to hermetically seal their places of tippling and all go a hunting. The capital of Massao for this one day, if promises hold good, will be dry.

Philadelphia, although considered slow, is an example that may well be followed by other cities. In 1900 she expended \$2,000,000 in new pavements, while an additional sum of \$600,000 was appropriated for repairing and resurfacing. The material appearance of the city has been conspicuously improved as a result.

Plans for a monument to cost \$50,000 to the memory of Baron and Baroness de Hirsch have been completed.

The memorial is to be erected in Central park, New York, and will be paid for wholly by volunteer subscriptions.

This is a merited tribute to two of the greatest philanthropists the world has ever known, as the Baron and his wife disbursed during their lives over \$100,000,000 to the worthy poor of New York city.

The trouble with the Democratic party is not with the organization but with the democracy. The people of the United States have outgrown Democratic principles. Those advocated by the party both at the present time and in the history of the nation, especially the later day history, have come to be beyond the reasonable acceptance of the people of the country. Until the party, both leaders and rank and file, come to advocate principles which are to be beneficial to the republic the party need not expect a reorganization that will give it the place in estimation of the people that it now desires.

Pennsylvania is urging congress to buy Valley Forge and make the historical grounds a national park. The nation, has, it will agree, too long neglected coming into possession of this site of the turning point in the revolution. Years ago it could have been bought for one-tenth of what it is today worth—\$200,000. But as it is never too late to do good this great battle ground should become the property of the government and be made a point of even greater interest to the rising generation than now. This is not only a great but it is a wealthy nation and the funds necessary to bring about the beautifying of the grounds in question and its proper marking are not be worthy of a moment's consideration. Let Valley Forge become the nation's property and let it be "decorated" with the honors it merits to the fullest extent. The people will endorse this evidence of patriotism so long neglected.

Paducah is our pride. No man loves it more than The Sun and if we did not think the present agitation would prove beneficial we would not be parties to it.

Comparisons are more odious than compilers when facts are in evidence.

Armour once said, "If you deal with facts and abandon theory you will succeed better."

A man who would trifly with the health and life of the citizens is unworthy to be mayor.

Chicago papers are claiming that the opening of the drainage canal from Chicago into Illinois river is placing in the river named and also the Mississippi near its mouth gamey varieties of fish known only in the big lakes.

The full significance of this claim is apparent when it is remembered that Lake Michigan is a great reservoir of all the varieties of fish common to fresh water and of some varieties not common in other bodies of fresh water. In Lake Michigan are all the varieties of fish from brook trout and lake trout to black bass, silver bass, and rock bass, including nearly every fish that is a delight to the sportsman's eye. The opening of the canal, therefore, has not only given the people along the banks of the Illinois and the Mississippi to St. Louis better water but also better fish.

This is the season of senatorial contests. Within the next few months there are 35 seats to be filled. While Berry, of Arkansas; Dilavar, of Iowa; Baker, of Kansas; Frye, of Maine; Hoar, of Massachusetts; McMillan, of Michigan; Nelson, of Minnesota; Sewell, of New Jersey; Warren, of Wyoming, and Elkins, of West Virginia, are reasonably sure of re-election without a contest, stubborn contests are already being waged in Delaware, where two senators are to be elected; Nebraska, New Hampshire, Colorado, South Dakota, Utah, North Carolina, and Oregon. The most uncertain contests are being waged in Delaware, Illinois, Pennsylvania, Nebraska and New Hampshire. Delaware has a vacancy which has outlasted two legislatures and the coming legislature will elect, in addition to filling the present vacancy, a successor to Senator Kenney. In Nebraska there are two senators to be elected, one to succeed Thurston, whose term will expire and one to succeed Allen, who is serving by executive appointment. There is fun for the legislators.

Repeated attention has been called for the past two years to the daily practice of sweeping filth from business houses on Broadway, into the street, but the city authorities, although it is against the law and a public nuisance, have paid no attention to it, and since the new street and sidewalks were built, it has grown worse than ever, and the filth thus swept onto the bricks, is caught by the wind,

He is an energetic man and will make a capable officer.

Mr. John Connor has arrived from Illinois, on a visit to his husband, Mr. Connor, the clothier, who is recovering from a spell of illness.

Mr. Henry Schoenberg, who has been visiting in Louisville, has returned.

Mr. L. Friedman went to Chicago yesterday.

Miss Fannie Powell arrived from the south yesterday to visit her sister, Mrs. M. B. Nash.

The Chicago Record of today says

the managers of the great railroad systems of the country are getting ready to dispense with the services of all traveling freight and passenger agents as a result of the agreement entered into between the roads not to cut rates. Should the plan be carried out about 50,000 men who solicit business will be let out. Vanderbilt, Morgan and Rockefeller originated the scheme.

The Illinois Central has let a contract for a new depot in Cedar Rapids, Iowa, to cost \$100,000.

Southern lines have announced a rate of one fare for the round trip on account of the Mardi Gras at New Orleans and Mobile February 14-19.

In November there were 253 accidents on railroads in this country, in which 56 persons were killed and 233 injured. Of the killed, 46 were employees and of the injured, 14 were employees.

The St. Louis train was four hours late today, arriving at 11:30 a. m. It was delayed by getting out of St. Louis late.

Agent Newman has been transferred back to Eddyville from Central City, and Agent Nuss from Henderson to Central City.

A new standard clock has been placed in the union depot ticket office.

Master Mechanic T. F. Barton returned this morning from Chicago.

Henry Thomas, colored, who was shot at Ripley, Tenn., several days ago, is better today at the Illinois Central hospital.

A new time card goes into effect on the N. C. & St. L. next Sunday, January 13, when the accommodation trains to Paducah will pass Murray early in the morning, returning the same evening, leaving Paducah about 4:30. This will give better connections and better satisfaction to patrons

WHIRLING IN SPACE.

Revolution of the Earth Around the Sun Explained.

That the earth, in common with all the planets, revolves around the sun as a centre, is a fact which rests upon the clearest demonstrations of philosophy. That it revolves like them, upon its own axis, is a truth which every rising and setting sun illustrates, and which very many phenomena concur to establish. Either the earth moves around its axis every day, or the whole universe moves around it in the same time. There is no third opinion that can be formed on this point. Either the earth must revolve on its axis every twenty-four hours, to produce the alternate succession of day and night, or the sun, moon, planets, comets, fixed stars, and the whole frame of the universe itself, must move around the earth, in the same time. It is evident that in proportion to the distance of the celestial bodies from the earth, must, on this supposition, be the rapidity of their movements.

The sun, then, would move at the rate of more than 400,000 miles in a minute; the nearest stars, at the inconceivable velocity of 1,400,000,000 miles in a second; and the most distant luminaries, with a degree of swiftness which no numbers could express, and all this to save the little globe we tread upon from turning safely on its axis once in twenty-four hours. The idea of the heavens revolving about the earth than there is to suppose that they revolve around each of the other planets, separately, and at the same time; since the same apparent revolution is common to them all, for they all appear to revolve upon their axis in different periods.—Montreal Herald and Star.
